Gathering foot	opt.
Compensating foot for cover- and chainstitches	x
Chainstitch foot	opt.
Waste collector for fabric and thread scraps	x
Upper-looper converter	x
Tools and accessories in separate box	bag

The BERNINA 1300 MDC makes creative sewing easier than ever before! Let yourself be inspired by this overlocker's wide range of stitches. The additional coverstitch opens up a whole new dimension in sewing. Enjoy the wealth of luxury features which will make sewing and overlocking even more of a pleasure – especially the patented mtc thread control for the perfect seam at the turn of a knob.

### Threading (lay-in) system

The BERNINA lay-in system lets you thread quickly and directly at all times. The automatic lower-looper threading system also makes threading the lower looper a piece of cake.

### Differential feed

Stepless differential feed ensures wave-free seams in knits and prevents puckering in fine fabrics, whilst allowing deliberate gathering.

### Unique swing-out presser foot

Simply swing the foot out to the side to give yourself plenty of space for easy threading and hassle-free needle change.

### LCD screen

The clear display tells you both the personal and default basic settings of the stitch variants. You can also read the recommended basic thread tension here, and save personal settings.
