

Easy navigation on a centrally located colour touch screen

BERNINA Stitch Regulator (BSR) included

Tula Pink, US Quilt Artist and Fabric Designer, for BERNINA
 Tula Pink plays with images the way a poet plays with words, turning innocuous traditional designs into mischievous little critters. Tula's love affair with textiles began early and an obsession with sewing soon followed. Tula began quilting in an effort to use up her ever-growing stash of fabric so that she could justify buying more. Today, 16 years later, she is a renowned designer and quilter. Tula Pink has designed a quilt from her "Moonshine" fabric collection exclusively for BERNINA.

"Next to my passion for my designs, I'm equally passionate about BERNINA. The BERNINA 770QE gives me the space I need for quilting, plus the Stitch Regulator can't be beat for even stitches."

A full 13-inch extended freearm, including 10 inches of space to the right of the needle

9 Things You'll Love about the BERNINA 7 Series:

The BERNINA Stitch Regulator (BSR)

The BERNINA 770QE and 790 are both equipped with the BSR function. The BSR foot assists you with free-motion sewing and quilting with a straight or zigzag stitch, ensuring stitches of the exact same length even at variable sewing speeds. Beginners quickly gain confidence with the BSR, while experienced quilters acquire additional self-assurance. The BSR foot comes in the standard accessories package of both the B 770QE and B 790.

Extended Freearm for Grand Ideas

The BERNINA 7 Series includes a meticulously engineered extended freearm with 10 inches of space to the right of the needle. Not only do the B 770QE and B 790 provide you with ample space for big, beautiful sewing and embroidery projects, with their 9 mm stitch width, they are also ideally suited for decorative stitching. The extra-large embroidery module (optional with the B 770QE) lets you stitch out maxi-sized motifs. And should your ambitions grow, both models can be updated with a wealth of accessories.

BERNINA Dual Feed

The innovative BERNINA Dual Feed tames hard-to-manage fabrics providing superb fabric feed and optimum visibility while sewing. Easy to engage when needed, the BERNINA Dual Feed tucks completely out of the way when it's not.

The B 790 includes an **embroidery module** with extra-large embroidery area (400 mm x 210 mm embroidery field). (Optional with the B 770QE.)

Total Stitch Control

All BERNINA 7 Series models provide an exclusive level of stitch control. Whether altering stitch length, stitch width or needle position, the machine will remember the stitch details for you. Your personal settings can be saved and retrieved at will. And the USB interface allows you to import and export stitches and stitch patterns or combinations.

BERNINA Adaptive Thread Tension

The BERNINA Adaptive Thread Tension, a BERNINA innovation, provides ideal thread tension while sewing to achieve perfect stitch quality on both sides of the fabric. Once the tension is set according to the thread and fabric used, BERNINA Adaptive Thread Tension will constantly check the thread tension, adjusting it automatically when needed. The result is the finest stitching without pressing a button.

Sew with Even Greater Ease

The B 770QE and B 790 accomplish many tasks all by themselves. The presser foot lowers automatically at the beginning of a seam. Threading is semi-automatic, and the thread is cut automatically when you reach the end of a seam, or when you wish to change colours while embroidering. Moreover, a practical extension table, which yet again significantly increases your work area, is included in the standard package.

Beautiful Embroidery Is Simplicity Itself

Both the B 790 and B 770QE can embroider, though the B 790 is our embroidery expert offering even more features and options for embroidery lovers. Switch to embroidery mode directly via the touch screen. Embroidery mode lets you easily position, mirror, rotate and resize motifs. Design editing on the B 790 offers a wealth of additional options, letting you create curved lettering effects, alter stitch density, and combine decorative stitches or alphabets with embroidery designs. Complex combinations can even be resequenced according to colour, and alternative colour options can be reviewed before stitching out. With both models, the finished design can be saved directly on the machine or on a USB stick. What's more, further designs can be imported to the machine via the USB port. The Check function lets you position the design precisely before embroidering. The embroidery module comes as standard with the B 790, and is available as an optional accessory for the B 770QE.

Create Your Own Stitches

(B 790 only)

The B 790 features a very special innovative function: the Stitch Designer. Create your own stitches by drawing your ideas right on the touch screen. With a click, the B 790 transforms your design into a stitch pattern. Or alter existing stitches as it takes your fancy. Save your very own stitch creations to steadily expand your stitch library.

The new **Maxi Hoop** was specially developed for the BERNINA 7 Series.

Tips and Tricks

User-friendly features and intuitive navigation: the Sewing Consultant and built-in tutorials offer direct onscreen support and answers to your questions at any time, day or night.

The BERNINA Hook

With the launch of the 7 Series, BERNINA introduced an absolute world's first, the BERNINA Hook, which uniquely combines the advantages of the two best hook technologies. This latest BERNINA innovation is patent pending.

The heart of the BERNINA 7 Series features a novel, centrally placed driver, which allows the BERNINA Hook to run fast yet quietly. The BERNINA Hook sews high-precision stitches up to 9 mm in width with speeds up to 1,000 stitches per minute. The bobbin holds up to 70% more thread than standard bobbins allowing you to sew longer without interruption.

Finally, the BERNINA Hook is made of high-quality materials that allow the thread to run smoothly at consistent tension.

BERNINA—made to create.

Colour **7-inch display** with easy navigation and **modern touch screen** technology (e.g. Drag & Drop and Swipe functions)

BERNINA Quality

For decades, BERNINA has been passionately committed to the development of sewing and embroidery machines. Swiss precision is at the heart of our products. High-quality materials guarantee a long product life and high performance.

The BERNINA 770QE and 790 offer a wealth of features that make sewing easier. Inventions such as the semi-automatic threading system, the BERNINA Stitch Regulator (BSR) and the remarkable, easy-to-use embroidery system with especially large embroidery area testify to a great spirit of innovation. The BERNINA 7 Series will also wow you visually with its simple yet exclusive design—because we concentrate not only on sophisticated technologies, but also on setting new standards in product design.

Kazu Huggler, Swiss-Japanese Designer

The daughter of a Japanese mother and Swiss father, Kazu Huggler belongs to a new generation of international couture fashion designers. She runs her studio and fashion label "KAZU" in Zurich. Her creations combine Japanese aesthetics and simplicity with Swiss quality. The first dress of her bridal fashion collection was created on a BERNINA 790.

"The BERNINA 790 lets you embroider designs over a particularly large area, and offers a range of luxury features. The Dual Feed is brilliant at feeding my silky fabrics."
